Performance Highlights

$31 billion
assets under management ("AUM")[1*]

$34.2 million
Q3 2026 margin from key operating segments**

$28.48
book value per share***

A summary of highlights from our third quarter results was as follows:

Asset management:

- Our asset management business generated revenue and net margin of $23.2 million and $17.8 million, respectively, compared to $14.5 million and $11.0 million in the comparative period.
- The increase was driven by consistent growth across our asset management mandates and higher acquisition and performance fee activity in the current period.

Income properties:

- Our income properties division generated net operating income ("NOI")[2] of $7.6 million, an increase of 16.3% relative to the comparative period, primarily driven by steady lease up of our multi-family rentals in our Western Canada master planned communities.
- In addition to the 1,081 multi-family units currently operational, we expect to complete another 931 units (at share) across Ottawa, Calgary and Saskatoon with initial occupancy expected in 2026 and 2027.

Western Canada development:

- In the third quarter, we achieved 79 lot sales, 13 acre sales and 29 housing occupancies in Western Canada, generating net margin of $8.9 million. As of November 6, 2026, we had secured $100.4 million of lot and acre sales to be recognized as revenue in the fourth quarter of 2026.

Return to Shareholders:

- In the nine months ended September 30, 2026, we repurchased 396,558 Subordinate Voting Shares at an average price of $19.56 under the Company's normal course issuer bid for an aggregate cost of $7.8 million and returned $22.0 million to shareholders through our quarterly dividend.

* Endnotes are listed at the end of the document.
** Margin from key operating segments consists of net operating income from Income Properties and net margin from Western Canada Development and Asset Management.
*** Book value[3] reflects our investments in certain assets at cost/IFRS rather than adjusting to fair value with the exception of Dream Group Holdings which have been measured at the respective trading prices as at September 30, 2026.

Increasing NOI from Income Properties

Dream has investment properties of $1,132.6 million and growing, which will continue to become a larger part of the Company's assets and income as we build-out our development pipeline. Of this amount, $305.2 million is currently under development.

The increase in NOI as well as increased diversification of income producing assets by asset class illustrates our transition to holding these assets once built.

Disclaimers - Specified Financial Measures and Other Disclosures - Dream

Throughout this presentation, there are references to certain non-GAAP financial measures and ratios and supplementary financial measures in respect of Dream, including: assets under management, net operating income, book value and book value per share as well as other measures discussed elsewhere in this presentation, which management believes are relevant in assessing the economics of the business of Dream. These performance and other measures are not financial measures under GAAP and may not be comparable to similar measures disclosed by other issuers. However, we believe that they are informative and provide further insight as supplementary measures of financial performance, financial position or cash flow, or our objectives and policies, as applicable. Certain additional disclosures such as the composition, usefulness and changes, and reconciliations, as applicable, of the non-GAAP financial measures and ratios and supplementary financial measures included in this presentation have been incorporated by reference from the management's discussion and analysis of Dream for the three and nine months ended September 30, 2026, dated November 10, 2026 under the section "Non-GAAP Measures and Other Disclosures", which is available on SEDAR+ (www.sedarplus.ca) under Dream's profile.

Non-GAAP Ratios and Financial Measures

"Book value" is a non-GAAP financial measure that represents shareholders' equity attributable to Dream on a standalone basis. This metric excludes the impact of Dream Impact Trust and consolidation and fair value adjustments. The most directly comparable financial measure to book value on a standalone basis is book value on a consolidated basis. This measure is intended to reflect how management measures the equity value of the core business operations of Dream.

"Book value per share" is a non-GAAP ratio and is calculated as book value on a standalone basis divided by the number of subordinate voting shares and Class B common shares of Dream as at September 30, 2026. The most directly comparable financial measure to book value per share on a standalone basis is book value per share on a consolidated basis.

"Dream Impact Trust and consolidation and fair value adjustments" represent certain IFRS Accounting Standards adjustments required to reconcile Dream standalone and Dream Impact Trust results to the consolidated results as at September 30, 2026 and December 31, 2025. Management believes Dream Impact Trust and consolidation and fair value adjustments provides investors useful information in order to reconcile it to the Dream Impact Trust financial statements.

Consolidation and fair value adjustments relate to business combination adjustments on acquisition of Dream Impact Trust on January 1, 2018 and related amortization, elimination of intercompany balances including the investment in Dream Impact Trust units, adjustments for co-owned projects, fair value adjustments to the Dream Impact Trust units held by other unitholders, and deferred income taxes.

"Dream standalone" represents the results of Dream, excluding the impact of Dream Impact Trust's and Dream Impact Fund's consolidated results and adjustments to reflect Dream's proportionate share of partnership assets, liabilities and earnings. Refer to the "Segmented Assets and Liabilities" and "Segmented Statement of Earnings" sections of the MD&A for a reconciliation of Dream standalone to the results in the consolidated financial statements. The most directly comparable financial measure to Dream standalone is consolidated Dream. This non-GAAP measure is an important measure used by the Company to evaluate earnings against historical periods, including results prior to the acquisition of control of Dream Impact Trust and Dream Impact Fund.

"Dream standalone adjustments" represents certain adjustments required to reflect the Company's direct interest in net assets and earnings of our partnerships. Adjustments include remeasurement of the Dream Group Holding from carrying value to trading price to reflect their cash value. Management believes Dream standalone adjustments provides investors useful information in order to view Dream's statement of financial position and statement of earnings in a presentation that reflects the Company's interest in net assets and earnings from our direct interest in those partnerships. The adjustments included in the calculation of Dream standalone adjustments have been listed below.

1. Proportionately consolidates all material equity accounted investments held directly by Dream with the exception of our ownership in Dream Impact Trust, Dream Office REIT and previously DRR;
2. Reclassify Dream Impact Trust, Dream Office REIT and previously DRR to Dream Group Holdings and remeasure units at trading price as at September 30, 2026 and December 31, 2025 ; and
3. Adjusts for the full consolidation of our interest in Dream Impact Fund to Dream Group Holdings.

"***Net operating income***" is a non-GAAP measure and represents revenue, less (i) direct operating costs and (ii) selling, marketing, depreciation and other indirect costs, but including: (iii) depreciation; and (iv) general and administrative expenses. The most directly comparable financial measure to net operating income is gross margin. This non-GAAP measure is an important measure used by management to assess the profitability of the Company's income properties segment. For the three and nine months ended September 30, 2026 and 2025, net operating income for the income properties segment is equivalent to gross margin.

Supplementary and Other Financial Measures

"Assets under management ("AUM")" is the respective carrying value of gross assets managed by the Company on behalf of its clients, investors or partners under asset management agreements, development management agreements, advisory, administrative and/or management services agreements at 100% of the client's total assets. All other investments are reflected at the Company's proportionate share of the investment's total assets without duplication. Assets under management changes with asset appreciation or depreciation, changes in fair market values, acquisitions and dispositions, operating gains and losses and inflows and outflows of capital.

Assets under management may also be classified by asset class i.e. office, residential, industrial, development. Certain asset classes are held by multiple Dream entities.
